

Heavy Rain Expected This Afternoon Through Midday Saturday

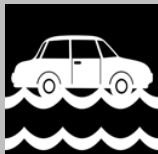

Decision Support Briefing #3
As of: 9 AM Friday July 28, 2017

What Has Changed?

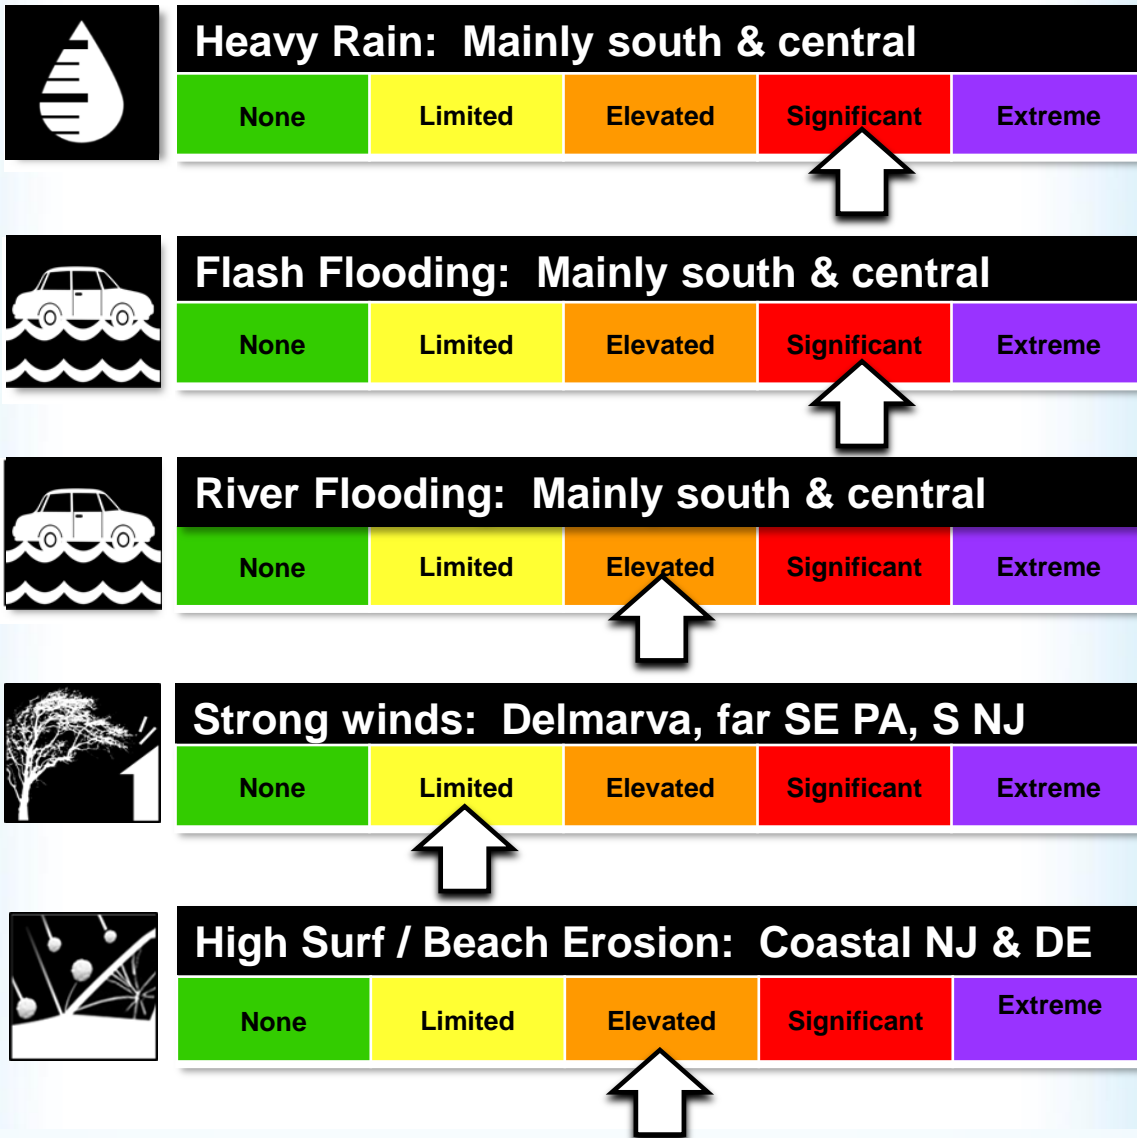

- ✓ *Rainfall Totals*
- ✓ *Threat Level*
- ✓ *Impacts*

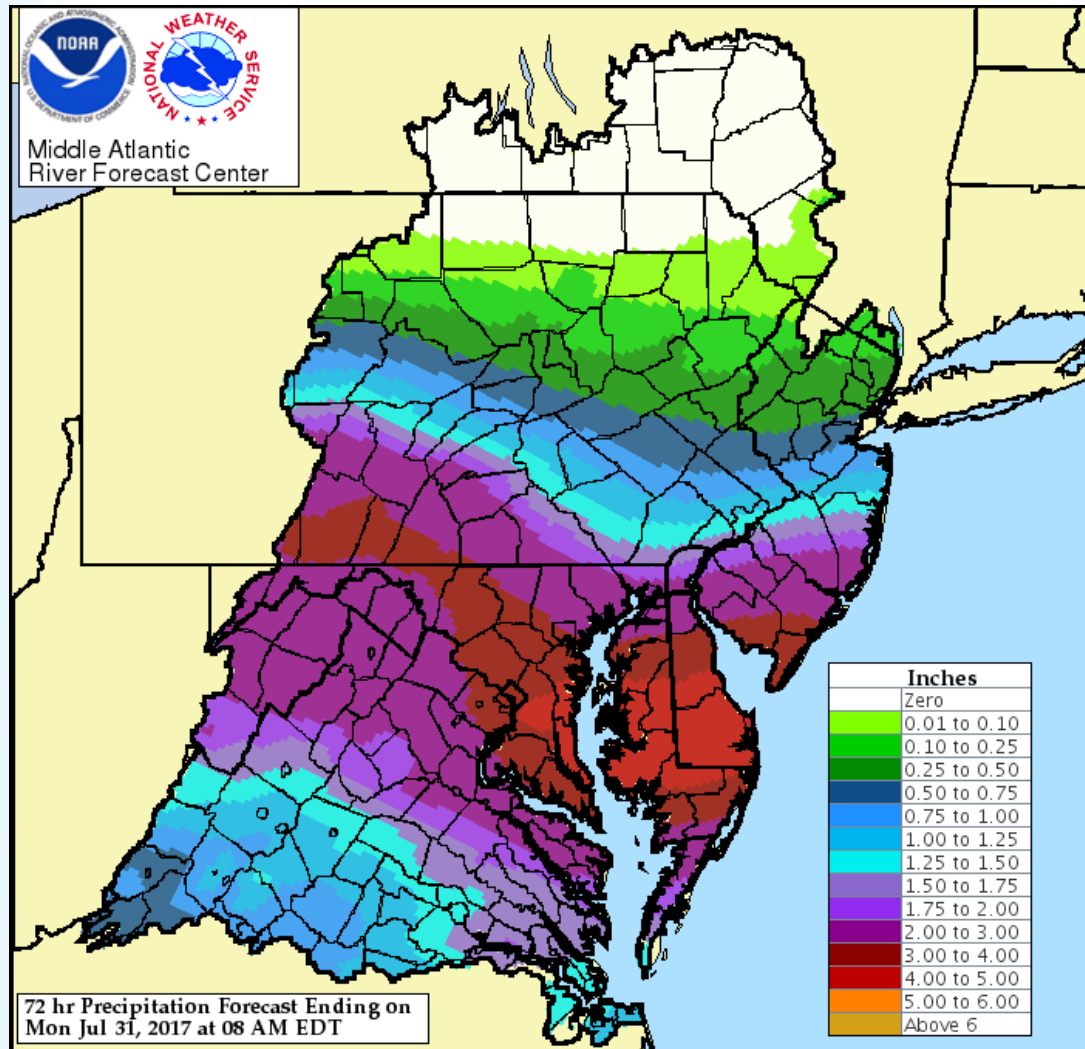

Main Points

Hazard	Impacts	Location	Timing
Flash Flooding 	Road closures, residential and commercial flood damage, road/bridge/culvert/dam structural damage, water rescues.	Possible across the region, but especially south of the PA Turnpike.	Friday afternoon through Saturday evening. The heaviest rainfall looks to be from Friday evening through midday Saturday.
River Flooding 	Road closures, structures inundated, especially if the heavy rain falls over areas that had flooding this past weekend.	Southern NJ. If axis of heaviest rain shifts north, the threat of river flooding will increase across SE PA and central NJ.	Friday night into Sunday.
Strong Winds 	Tree damage possible with the strongest storms.	Delmarva, Central and southern NJ, and far southeastern PA	Highest risk Friday afternoon and Friday night.
High Surf Beach Erosion	Waves up to 8 feet in the surf zone.	Ocean front sections of coastal NJ and DE	Highest risk Saturday evening through Sunday evening.

Summary of Greatest Impacts

Forecast Rain Amounts Fri into Mon.
